

Gold Alien Sputnik

What you'll need:

styrofoam ball
gold spraypaint
toothpicks
glue

colored air dry clay or play dough
ribbon or string

Spray paint the styrofoam ball
and toothpicks gold.
Pour a "puddle" of glue in a paper
bowl.
Dip each toothpick in the glue...

...and then poke toothpicks into
the styrofoam ball.
Use lots of toothpicks so your
golden alien ball will look like a
sputnik!

Make lots of little balls with colored play dough.

Stick one ball on the end of each toothpick.
Let dry overnight.

Tie a piece of string to one of the toothpicks and hang from the ceiling. Enjoy!

Note: if any of the little play dough balls drop off, just press them back on.
