

Make a tie for Fathersday.

Material:

Thick paper (or thin cardboard)

Wool

Adhesive tape

stickers (or coloured paper and glue, to make your own decorations)

Cut out tie (number 1) with the flap and the tie (number 2) without the flap.

Fold the flap of tie number 1 backwards.

Put a long thread of wool under the flap and then put some tape over it. (make sure the wool is long enough to fit around your fathers neck!)

Then glue tie number 2 onto tie number 1, so you won't see the flap anymore.

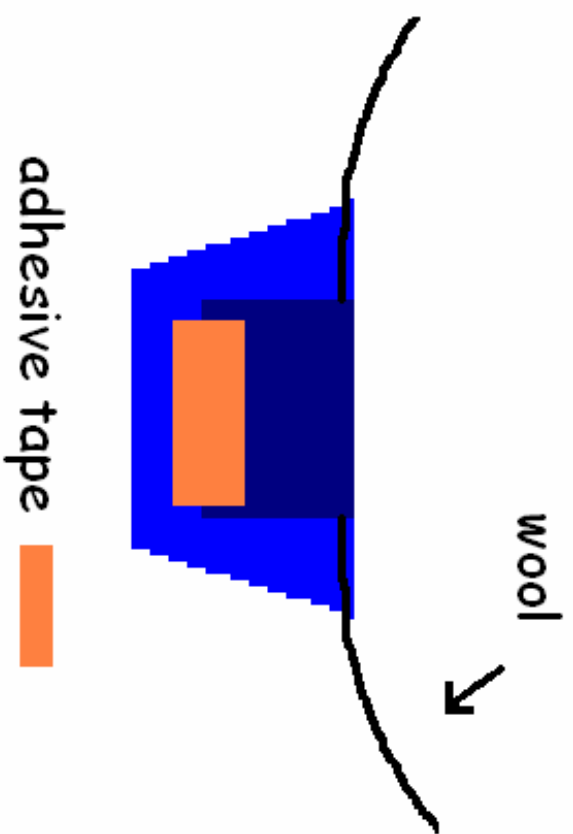

Then decorate the tie with stickers.

Have fun!
