## **Activity: Alphabet Preschool Ideas And Themes**

**By Jennifer Houck**

When it comes to choosing an activity, alphabet preschool crafts are a great way for teaching new skills. Literacy is an important aspect of early learning and teaching the alphabet is critical to future success. When selecting an activity, alphabet preschool crafts, and lesson plans can ensure that the project you are working on is age appropriate, appealing to the child, and fun.

A great way to introduce your activity, alphabet preschool crafts, and lessons is by using an alphabet theme. Your alphabet theme will consist of a variety of educational activities, stories, songs, and more. By providing age appropriate resources your theme will be a success. There are many storybooks that will play an integral role in your alphabet theme. Some popular choices include Chicka Chicka Boom Boom by Bill Martin Jr. and Alphabet City by Stephen T. Johnson. However, there are numerous alphabet books available at your local library, and these give you the freedom to create an alphabet theme based on your choice of book.

The book should be the core feature of your theme. Repetition is key to ensuring that children comprehend the relationship between your activity, alphabet preschool crafts, and lessons. Using complimentary flannel board games can help reinforce your story time as well. One of the best advantages of using an activity, alphabet preschool lessons, and crafts with your theme is that you can incorporate many additional areas of learning. Art can play a vital role in your lesson plans, but you can also integrate cultural awareness and science principles in your literacy projects. With creativity and imagination, you can customize or tailor your theme to incorporate any additional skills that you choose. When creating your alphabet theme, consider adding some of the following to your plan:

- Storybooks
- Puppets
- Coloring sheets
- Posters
- Flashcards
- Puzzles
- Games
- Songs
- Painting
- Creating Letter Books
- Making Alphabet Collages
- Flannel Board Stories
- File Folder Games
- Computer games and software
- Bulletin Boards

By creating and adding variety to your theme, you can ensure that children will remain interested in you lessons.

## Pre-School Toddlers Toys: A Guide For Every Parent

By Christopher Peace

Preschool Toddlers toys

I am looking for preschool toddlers toys. Any ideas?

There are many different toddlers toys that are directly related to the preschool age. Some such as Spanish Bingo are attuned to helping your preschooler learn the Spanish language. This bingo is set for the preschooler in order to learn the Spanish language. This helps in being able to match and learn the sounds of the Spanish language and to give them a start in building fluidity in a language besides English. Toddlers begin to learn language very early and by having a game such as this will allow them to learn faster as they play a game.

Do you have other recommendations for toddlers toys for the preschool age?

Yes there are other learning toddlers toys that are available for the preschool age. Some of these teach numbers and shapes, while others teach coordination skills. A toy worth mentioning is the Friendly Bugs Lacing cards. This toy teaches the preschooler how to lace and to follow the dots. Another game worth noting is the Alphabet Puzzle Pairs. These puzzle pairs teach the alphabet with color coordinated edges to make this task an easier one to learn. This is a bestselling toddlers toys game that teaches both the upper and lower cases of the alphabet. Your child will learn quickly when exposed to this game.

It sounds like these toddlers toys combine fun and learning.

Yes, each of the toddlers toys in the toddler aisle has a different learning function associated with it. These games are fun to play and your toddler will not notice that they are learning because it is fun. Incorporating fun into learning is a sure way for your toddler to remember because it is not associated with the learning process. These games and toys serve both sides of the coin by being entertaining while teaching at the same time. This is one of the quickest ways to learn when you are a toddler and by having fun they will also remember the lesson that is being taught.

Can I find these toddlers toys in my local toy store?

The answer to that question is yes. Many toy stores sell toddlers toys to the general public. These toys are always available through stores and online markets. There are many different preschool toys that are available by means of any store that will meet your need for a preschool learning toy. From card games to puzzles and everything in between, you will find what you want at a price that you can afford. Your toddler will see the toy and just something else to play with, but you will know that with playtime comes learning that is fun and easy to do. So for fun time learning choose a game from the preschool line at your local toy store and watch the fun and learning begin. Your child will thank you for the pleasure of a game that is fun to play. She or he won't realize that they are learning along with playing.

Smalltime Child offers a great selection of Toddlers Toys. Visit us on the web today at
